Who is that...

Pokémon ?!

NCSR Democritus & University of Piraeus

Ioannis Kasionis

Athens 2024

What about the dataset?

https://huggingface.co/datasets/keremberke/pokemon-classification

Context → A variety of labeled Pokemon images

Inspiration → Identify Gen 1 Pokemon from their images

Scope → Use of publicly available Pokemon datasets and/or Images scraped from the web

Future work/Ideas → Potential to scale to more Pokemon in the future

Training

🔴 Will train the model on various images of Gen 1 Pokemon

Testing

🔴 Will test the model on unseen images

Prediction →

Pikachu
